| I INTRODUCTION | 1 |
| Rationale for the Study | 7 |
| State of the Problem | 8 |
| Purpose of the Study | 9 |
| Scope of the Study | 9 |
| Benefit of the Study | 10 |
| II REVIEW OF RELATED RESEARCH AND LITERATURE | 11 |
| Solar Energy Potential in Thailand | 11 |
| Rural Electrification in Thailand and other countries | 12 |
| Energy and Economic Evaluation Method | 14 |
| Photovoltaic System VS. Grid Based Power Supply | 20 |
| Cost-Benefit Analysis | 24 |
| Optimal Renewable Energy Model | 28 |
| III METHODOLOGY | 31 |
| Study the Photovoltaic System in Thailand | 33 |
| Load Demand Analysis | 37 |
| Economic Comparisons of Alternative Electrification Options | 39 |
| Life-Cycle Cost of Solar Home System | 43 |
| Life-Cycle Cost of Battery Charging Station | 45 |
| Life-Cycle Cost of Centralized Mini-Grid | 47 |
| Life-Cycle Cost of Using a Diesel Generator System | 49 |
| Economic Benefits of Using Photovoltaic Systems | 52 |
| Case study: Ban Pean Village, Doi Saket, Chiang Mai | 57 |

LIST OF CONTENT (CONT.)

| Chapter | Page |
|--|------|
| IV RESULTS AND DISCUSSION | 61 |
| Empirical results from the Photovoltaic system's survey | 61 |
| Evaluation of Photovoltaic systems for Rural Electrification in Thailand | 67 |
| Future of Photovoltaic use for Rural Electrification in Thailand | 83 |
| An ideal approach used to evaluate the integrated energy supply and economic evaluation | 84 |
| V CONCLUSION AND RECOMMENDATION..... | 91 |
| Conclusion..... | 91 |
| Recommendation..... | 92 |
| REFERENCES | 94 |
| APPENDIX..... | 98 |
| BIOGRAPHY | 115 |

LIST OF TABLES

| Table | | Page |
|-------|---|------|
| 1 | Population Data of some countries in Asia | 2 |
| 2 | Electricity Services in South and South-East Asia 2002..... | 3 |
| 3 | First Phase Shares of Contact for the Installation of the Thai SHS project .. | 34 |
| 4 | Daily energy consumption of electrical appliances | 37 |
| 5 | Capital costs of SHS | 44 |
| 6 | O&M cost of SHS | 45 |
| 7 | Period of Replacement of Components of a SHS | 45 |
| 8 | Capital Costs of Battery Charging Station | 46 |
| 9 | O&M of a Battery Charging Station | 46 |
| 10 | Period of Replacement of Components of a Battery Charging Station | 47 |
| 11 | Capital Costs of Centralized Mini-Grid | 47 |
| 12 | O&M of a Centralized Mini-Grid System..... | 48 |
| 13 | Period of Replacement of Components of a Centralized Mini- Grid | 48 |
| 14 | Capital Cost of the Diesel Generator | 50 |
| 15 | Operation Costs of a Diesel Generator System | 51 |
| 16 | Maintenance Costs of a Diesel Generator System | 51 |
| 17 | Period & Costs of Replacement of Components of a Diesel Generator System | 52 |
| 18 | Life Cycle Avoided Fuel Cost | 55 |
| 19 | Computer and Internet Users in Thailand 2004..... | 70 |
| 20 | Investment Trend in the Establishment of Solar PV Industries in Thailand | 82 |

LIST OF FIGURES

| Figure | | Page |
|--------|---|------|
| 1 | The Photovoltaic System in Various Applications in Thailand | 6 |
| 2 | Solar Map of Thailand | 11 |
| 3 | Rural Energy Supply Model..... | 16 |
| 4 | Energy System Model, Slovenian Macro Economic Energy Model (SMEEM) and other models necessary for a closed loop energy-economy investigation..... | 20 |
| 5 | Indonesia: Break-even Thresholds for PV-and Grid-Based Electricity Supply by Village Location..... | 23 |
| 6 | Methodology flowchart of this dissertation..... | 32 |
| 7 | Road to Ban Pean - viewed from uphill..... | 57 |
| 8 | Author interviewing the head of village in Ban Pean village in Chiang Mai Province..... | 59 |
| 9 | Management Structures of the SHS in Ban Pean..... | 60 |
| 10 | Number of People watching for their entertainment and other information | 71 |
| 11 | Respondents views on quality of electricity supply by SHS | 71 |
| 12 | Preferred Electricity Supply System in Rural Thailand..... | 72 |
| 13 | Benefit of Electricity Generated from PV Systems..... | 73 |
| 14 | Percentage of respondents willing to pay with different payment method for alternative system (PV) | 74 |
| 15 | The factors that rural people cared while purchasing PV system | 75 |
| 16 | Factor concerned by the users while using PV system | 75 |
| 17 | Percentage of Preferred Electricity supply system for Village Electrification | 76 |

LIST OF FIGURES (CONT.)

| Figure | Page |
|---|------|
| 18 Installation of PV module at location mostly shadowed by trees..... | 77 |
| 19 Inappropriate location of battery and poor wiring | 78 |
| 20 Poor wiring connections without insulation in a house at Ban Pean Village .. | 79 |
| 21 A by passed charge controller in SHS of Ban Pean Village | 80 |
| 22 PV Rural Electrification Model | 84 |
| 23 Different Costs Associated with PV and Diesel Generator system | 86 |
| 24 Life Cycle Cost of PV systems compare with DG | 87 |
| 25 Area chart in L_{COE} of rural electricity supply system..... | 88 |
| 26 The trend of the percentage of each L_{COE} contributed by different categories of rural electricity supply system with respect of No. of HH in the community..... | 89 |

ABBREVIATION

| | |
|-------|---|
| AC | : Alternative Current |
| BCS | : Battery Charging Station |
| BOS | : Balance of System |
| CBA | : Cost-Benefit Analysis |
| CDM | : Clean Development Mechanism |
| CMG | : Centralized Mini-Grid |
| DC | : Direct Current |
| DEDE | : Department of Alternative Energy Development and Efficiency |
| DG | : Diesel Generator |
| EGAT | : Electricity Generating Authority of Thailand |
| EIA | : Energy Information Administration |
| EIC | : Eenergy International Corporation |
| EPPO | : Energy Policy and Planning Office |
| ERIA | : Energy Regional Impact Assessment |
| HH | : Household |
| IEA | : International Energy Agency |
| IPP | : Independent Power Producer |
| IRR | : Internal Rate of Return |
| ISE | : Institute for Solar Energy Systems |
| ISES | : International Solar Energy Society |
| LCC | : Life Cycle Cost |
| NEPC | : National Energy Policy Committee |
| NESDP | : National Economic and Social Development Plan |
| NU | : Naresuan University |
| PEA | : Provincial Electricity Authority |
| PRE | : Photovoltaic for Rural Electrification |
| RRPO | : Regional Royal Project Office |

ABBREVIATION (CONT.)

| | |
|------|---|
| PV | : Photovoltaic |
| PVPS | : Photovoltaic Power Systems |
| RRPO | : Regional Royal Project Office |
| SERT | : School of Renewable Energy Technology |
| SHS | : Solar Home System |
| SPP | : Small Power Producer |
| VSPP | : Very Small Power Producer |
| UN | : United Nations |
