LIST OF TABLES

Table	Page
1 Histological results of male rats and mice treated with <i>B. superba</i> alcoholic extracts at the dose of 5,000 mg/kg BW as a single dose	63
2 Histological results of female rats and mice treated with <i>B. superba</i> alcoholic extracts at the dose of 5,000 mg/kg BW as a single dose	64
3 Effects of chronic treatment with <i>B. superba</i> extracts on relative organ weight in male rats	65
4 Effects of chronic treatment with <i>B. superba</i> extracts on relative organ weight in female rats	66
5 Effects of chronic treatment with <i>B. superba</i> extracts on relative organ weight in male mice	67
6 Effects of chronic treatment with <i>B. superba</i> extracts on relative organ weight in female mice	68
7 Effects of chronic treatment with <i>B. superba</i> extracts on hematological parameters in male rats	69
8 Effects of chronic treatment with <i>B. superba</i> extracts on hematological parameters in female rats	70
9 Effects of chronic treatment with <i>B. superba</i> extracts on hematological parameters in male mice	71
10 Effects of chronic treatment with <i>B. superba</i> extracts on hematological parameters in female mice	72
11 Effects of chronic treatment with <i>B. superba</i> extracts on blood biochemistry of male rats	73

LIST OF TABLES (CONT.)

Table	Page
12 Effects of chronic treatment with <i>B. superba</i> extracts on blood biochemistry of female rats	74
13 Effects of chronic treatment with <i>B. superba</i> extracts on blood biochemistry of male mice	75
14 Effects of chronic treatment with <i>B. superba</i> extracts on blood biochemistry of female mice	76
15 Effects of chronic treatment with <i>B. superba</i> extracts on organ histology of male rats	77
16 Effects of chronic treatment with <i>B. superba</i> extracts on organ histology of female rats	78
17 Effects of chronic treatment with <i>B. superba</i> extracts on organ histology of male mice	79
18 Effects of chronic treatment with <i>B. superba</i> extracts on organ histology of female mice	80

LIST OF FIGURES

Figure	Page
1 Picture of <i>B. superba</i> yellowish orange color flowers.....	4
2 Anatomy of penis	11
3 Cellular perspective of the erection pathway	12
4 Diagram of the isolated cavernous tissues preparation in organ bath	27
5 The technical landmarks for the registration of intracavernous pressure in vivo.....	29
6 Tracing showing the changes in the intracavernosal pressure following cavernous serve electrical stimulation (ES).....	30
7 Screening diagram of <i>B. superba</i> alcoholic extracts	37
8 Summary diagram of acute toxicity study of <i>B. superba</i>	42
9 Summary diagram of chronic toxicity study of <i>B. superba</i>	43
10 Representative changes in the ICP recorded from a control and a 1 mg/kg BW extract-treated rats	47
11 Effects of the extracts from different parts of <i>B. superba</i> on the increases in ICP	48
12 Concentration-response relationship of the <i>B. superba</i> extracts from DRPr on the increases in ICP in rats	49
13 Effect of long-term treatment with <i>B. superba</i> on the ICP. The animals received the extract daily for 6 months.	51
14 Effects of <i>B. superba</i> alcoholic extracts on relaxation of phenylephrine-induced contraction of cavernosal smooth muscle	52
15 Effects of IBMX and cGMP on relaxation of phenylephrine-induced contraction of cavernosal smooth muscle	53

LIST OF FIGURES (CONT.)

Figure	Page
16 Effects of cGMP or cGMP with <i>B. superba</i> extracts (KK) at various concentrations on relaxation of phenylephrine-induced smooth muscle contraction.....	54
17 Effects of IBMX or IBMX with <i>B. superba</i> extracts (KK) at various concentrations on relaxation of phenylephrine-induced smooth muscle contraction	55
18 Effects of <i>B. superba</i> extracts on the motility of rat spermatozoa	57
19 Effects of <i>B. superba</i> extracts on the motility of mouse spermatozoa	58
20 Effects of <i>B. superba</i> extracts on the sperm count in rat and mouse	59
21 Effects of <i>B. superba</i> extracts on the sperm morphology in rats	59
22 Effects of <i>B. superba</i> extracts on the sperm morphology in mice	60
23 Micrographs of testicular sections from a normal rat and a rat receiving the <i>B. superba</i> extract at the dose of 1 mg/kg BW/day	60
24 Histological examination of liver sections	81
25 Lumen of epididymis and spermatozoa (S) in the epididymis of one control rat and rat receiving <i>B. superba</i> extract at the dose of 10 mg/kg BW/day	82

ABBREVIATIONS

ABTS	2,2'-azinobis-(3-ethylbenzo-thiazoline-6-sulfonate)
AChE	acetylcholinesterase
ALP	alkaline phosphatase
ALT	alanine aminotransferase
ART	assisted reproductive technology
AST	aspartate aminotransferase
ATP	adenosine triphosphate
BCR	bulbocavernous reflex
BP	blood pressure
<i>B. superba</i>	<i>Butea superba</i> Roxb.
BUN	blood urea nitrogen
BW	body weight
°C	degree Celsius
Ca ²⁺	calcium ion
CaCl ₂	calcium chloride
cAMP	cyclic adenosine monophosphate
cGMP	cyclic guanosine monophosphate
CGRP	calcitonin gene-related peptide
cm	centrimetre
CNS	central nervous system
DB	dried bark
DBPr	dried bark extract of <i>B. superba</i> from Phrae Province
DBPy	dried bark extract of <i>B. superba</i> from Phayao Province
DPPH	1,1-diphenyl-2-picryl-hydrazyl
DR	dried root

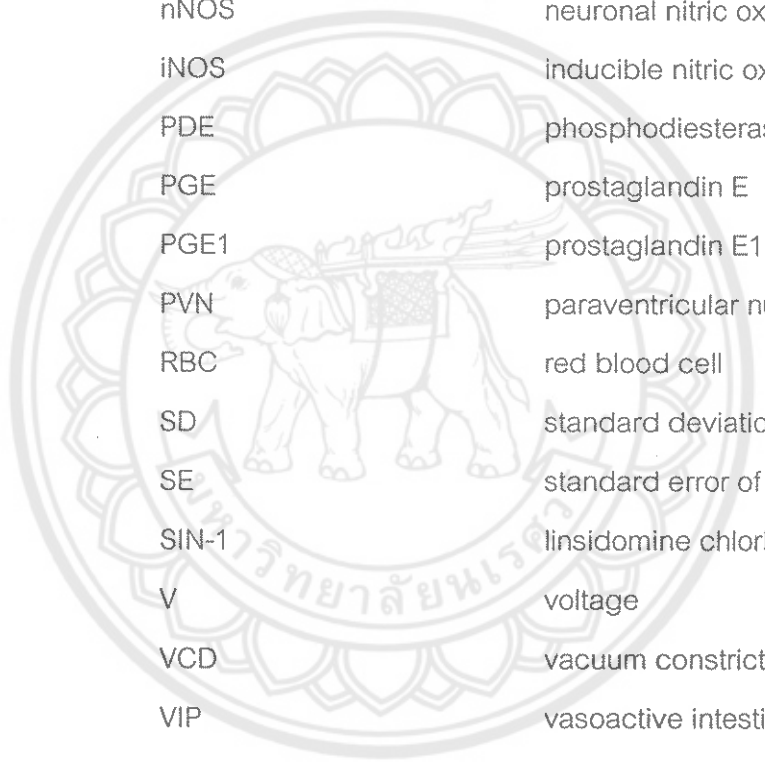

ABBREVIATIONS (CONT.)

DRPr	dried root extract of <i>B. superba</i> from Phrae Province
DRPy	dried root extract of <i>B. superba</i> from Phayao Province
DW	distilled water
ED	erectile dysfunction
EDTA	ethylenediaminetetra-acetic acid
ER	estrogen receptor
ESI-MS	electrospray ionization -mass spectrometry
FB	fresh bark
FBPr	fresh bark extract of <i>B. superba</i> from Phrae Province
FBPy	fresh bark extract of <i>B. superba</i> from Phayao Province
FR	fresh root
FRPr	fresh root extract of <i>B. superba</i> from Phrae Province
FRPy	fresh root extract of <i>B. superba</i> from Phayao Province
FSH	follicle stimulating hormone
g	gram
GnRH	gonadotropin-releasing hormones
GTP	guanosine triphosphate
Hct	hematocrit
H&E	hematoxylin and eosin

ABBREVIATIONS (CONT.)

HEPES	N-(2-hydroxyethyl)piperazine-N'-(2-ethanesulfonic acid) hemisodium salt
hr	hour
HPLC	high pressure liquid chromatography
5-HT	5-hydroxytryptamine, serotonin
IBMX	isobutyl-methylxanthine
ICP	intracavernous pressure
IIEF	international index of erectile dysfunction
IU	international unit
KCl	potassium chloride
kg	kilogram
LD ₅₀	median lethal dose
LH	luteinizing hormone
LSD	least significant difference
MgCl ₂	magnesium chloride
MAP	mean arterial pressure
MPOA	medial preoptic area
NaCl	sodium chloride
O ₂	oxygen
OECD	organization for economic cooperation and development
µm	micrometre
mg	milligram
min	minute
ml	millilitre

ABBREVIATIONS (CONT.)

mm	millimeter
MMAS	Massachusetts male aging study
mM	millimolar
NO	nitric oxide
eNOS	endothelial nitric oxide synthase
nNOS	neuronal nitric oxide synthase
iNOS	inducible nitric oxide synthase
PDE	phosphodiesterase
PGE	prostaglandin E
PGE1	prostaglandin E1
PVN	paraventricular nucleus
RBC	red blood cell
SD	standard deviation
SE	standard error of mean
SIN-1	linsidomine chlorhydrate
V	voltage
VCD	vacuum constriction device
VIP	vasoactive intestinal peptide
WBC	white blood cell
wks	weeks
