ACKNOWLEDGEMENT

First of all, I would like to express my deepest and most sincere gratitude to my major thesis adviser, Assist. Prof. Dr. Rattima Jeenapongsa, for accepting me to do research as one of her colleagues, leading and guiding me with her excellent prospects in order to perform the fruitful experiments and encouraging me with her intensive supervision to fulfill writing up this thesis.

I wish to acknowledge Assoc. Prof. Yuthana Smitasiri for his valuable suggestions, comments, criticism and correction for the thesis.

I am grateful to Dr. Thanasak Teaktong for all the suggestions, comments and reviews the present manuscript.

I am also indebted to Dr. Sombun Luangwattanakij and Dr. Krongkarn Chootip for excellent technical assistances.

My sincere thanks are to Assist.Prof. Dr. Kornkanok Inkaninan for helping with the extract.

My sincere appreciation is also extended to Mr.Pan Satantung for taking care the animals during my study.

My thanks are also extened to Mr. Athipong Manasathien, Mr.Sitthisak Pinpongkholgul, Mrs. Pensri Wongviriya and Miss Ratana Jaisuk for their kindness in various aspects.

I am particularly grateful to the Faculty of Pharmaceutical Sciences, Naresuan University, Phitsanulok and Mae Fah Luang University, Chiangrai, Thailand for financial support.

Finally, I would like to express my deepest gratitude and appreciation to my father and all members in my family for their love, encouragement, understanding, and kindly support throughout my study.

Chainarong Tocharus
