ACKNOWLEDGEMENT

I would like to express my deep gratitude to my advisor, Associate Professor Dr. Vichian Laohakosol, for his kind, generous support and advice, which I will continue to rely on for the rest of my life. He is my role model at hard work.

I would like to express my deep appreciation to Assistant Professor Dr. Manoj Siripitukdet and Dr. Pattira Ruengsinsub, for their encouragement and suggestions. Sincere thanks and profound appreciation are also extended to Assistant Professor Dr. Nittiya Pabhapote, Dr. Anchalee Kaewcharoen, Dr. Tuangrat Chaichana, my thesis committee, for taking time to read this thesis and giving me those useful comments. I would also like to thank my teachers and colleagues at the Mathematics department in giving their encouragement and valuable help.

Thank you everyone who were with me in Room 300. I understood the nature of fun and hard-working environment. They have made the atmosphere of Room 300 wonderful with their smiles and friendship. Room 300 is like home to all of us and I will never forget it. For me working in this room is the best time I have ever had as a student.

In particular, I gratefully appreciate my family for their unconditional love and endless support.
