ACKNOWLEDGEMENT

Contribution and support from many people helped me in the completion of this thesis. I would like to take this opportunity to express my appreciation to them.

First, I would like to express my deep appreciation and gratitude to my major adviser, Assoc. Prof. Dr. Wattanapong Rakwichian, and my adviser, Assoc. Prof. Dr. Rak Dandamrongrak and Assist. Prof. Dr. Sirichai Thepa, for providing beneficial advice and for their kindness throughout my study.

I am extremely grateful to my internal examiner, Assist. Prof. Dr. Pumisak Intanon, and my external examiner, Assoc. Prof. Dr. Uriwan Vijaranakul and Dr. Nivat Nabheerong, for their suggestion and useful comments.

I am grateful to my colleagues at the School of Renewable Energy Technology, for their support and understanding during my study.

In addition, I am thankful to the Energy Policy and Planning Office (EPPO), Thailand and Naresuan University, for their funding support in this research.

Wholehearted thankful appreciation is given to my family for their patience, understanding and support.

Finally, I would also like to thank the others, who inspired me but are not named in this acknowledgement.

Sukruedee Nathakaranakule
