ACKNOWLEDGEMENT

I would like to express my sincere gratitude and deep appreciation to my advisor, Associate Professor Dr. Nuwat Visavarungroj for his guidance, invaluable advice, supervision, kindness, and encouragement throughout study.

My sincere gratitude and deep appreciation must be extended to Assistance Professor Dr. Pinyupa Plianbangchang and Assistance Professor Soravoot Rujivipat, my co-advisors, for their constructive criticism, consultation, support and encouragement during entire study.

I am very grateful to Assistance Professor Anong Visavarungroj for her useful advice on laboratory practice of HPLC and UV spectrophotometer technique.

I am also very grateful to Dr. Tasana Pitaksuteepong and Associate Professor Dr. Poj Kulavanich for their valuable comments and creative criticism and for being members of thesis committee.

Many thanks must be given to the Department of Technical and Economic Cooperation (DTEC), Thai government for supporting me the Scholarship for International Graduate Degree Program to study in Naresuan University, Thailand.

Many thanks must also be given to Cambodia government for permitting and supporting me to study in Thailand.

A special acknowledge is extended to the Faculty of Pharmaceutical Sciences, Naresuan University for giving the best opportunity to study the Master Degree of Pharmaceutical Sciences, and special thanks are extended to all teachers and staffs there for their intensive teaching, for providing research facilities and assistance. My great appreciation is extended to the Faculty of Graduate Studies, Naresuan University for a research grant.

Finally, I would like to express my deepest gratitude to my dearest parents for their encouragement, understanding, care, love and continuous support throughout my life.

Yang Daravuth
