## ACKNOWLEDGEMENT

A journey is easier when you travel together. Interdependence is certainly more valuable than independence. This thesis is the result of hard work whereby I have been accompanied and supported by many people. It is a pleasant aspect that I have now the opportunity to express my gratitude for all of them.

I would like to express my deep and sincere gratitude to my advisor, Associate Professor Dr. Jarupa Viyoch, whose help, stimulating suggestions in all the time of research for and writing of this thesis. Her wide knowledge and her logical way of thinking have been of great value for me. Her understanding, encouraging and personal guidance have provided a good basis for the present thesis.

I am deeply grateful to my co-advisor, Dr. Kwanchai Rattanamanee and Dr. Thanasak Tiaktong, for their detailed and constructive comments, and for their important supported throughout this work.

I would also like to thank the other members of my thesis committee who monitored my work and took effort in reading and providing me with valuable comments on earlier versions of this thesis: Professor Dr. Malyn Chulasiri, Associate Professor Dr. Watcharee Khunkitti and Associate Professor Dr. Kornkanok Ingkaninan. I thank you all.

My colleagues of Naresuan University all gave me the feeling of being at home at work, many thanks for being your colleague.

Especially, I would like to give my special thanks to my family whose endless love enabled me to complete this work.
