ACKNOWLEDGEMENT

I wish to acknowledge and offer my sincere gratitude to my advisor, Assistance Professor Dr. Thiranee Khumlumlert and co-advisors Professor Dr. David Ruffolo. I greatly appreciated the guidance, support, and encouragement that were given throughout the length of the study. I also would like to give especial thanks to all thesis committee members, and profoundly grateful for their helpful comments.

Unforgettably, Dr. Alejandro Sáiz and Dr. Pierre-Simon Mangeard, Mahidol University, for their help in the parts of regarding data and techniques for running FLUKA program. I also thanks to John Clem, University of Delaware, for his program file for our simulations. I wish to acknowledge Dr. Paisan Tooprakai, Ms. Waraporn Nuntiyakul, Mr. Suttiwat Madlee and all staffs of the Space Physics and Energetic Particles (SEP) Group for helpful comments and suggestions to this thesis. Moreover, thanks to Dr.Nana Sarfo Agyemang Derkyi from the University of Energy and Natural Resources Ghana for his help in editing this thesis.

Commission on Higher Education (CHE), Thailand Center of Excellence in Physics, Naresuan University and Rajabhat Rajanagarindra University are gratefully acknowledged for the financial support.

Furthermore, I want to give thanks particularly to Mr. Wirote Chuthapirak for his endless love, understanding and all support including suggestions in this work. I would like to thank my parents, family and friends for love and encouragement and would like to reveal my appreciation to all others for all support to encourage and enable me to complete this thesis but are not named in this acknowledgement.

Finally, the value and usefulness of this study were hereby given to my mother, my husband and family who were greatly loved and respected as well as all respected teachers, who endow as knowledge, and sponsors. If there are any mistakes or defects, I would like to apologize for the faults and defects in this study; they are all mine. And I hope that this study will be of great usefulness to interested parties for further study.

Nalinee Aiemsa-ad
