

# LIST OF CONTENTS

Chapter	Page
I INTRODUCTION.....	1
II PRELIMINARIES .....	4
Topological vector spaces .....	4
Normed spaces and Banach spaces .....	7
Inner product spaces and Hilbert spaces .....	11
Convexity, smoothness and duality mappings .....	14
Multi-valued mappings .....	20
Equilibrium problems and variational inequality problems .....	24
III GENERALIZED VARIATIONAL INEQUALITIES AND MIXED EQUILIBRIUM PROBLEM .....	28
A generalized system of nonlinear variational inequalities in Banach space .....	28
Existence of solutions for generalized variational inequality problems in Banach spaces .....	42
System of nonlinear set-valued variational inclusions involving a finite family of $H(\cdot, \cdot)$ -accretive operators in Banach spaces .....	50
Existence and algorithm for generalized mixed equilibrium problem with a relaxed monotone mapping .....	61

## LIST OF CONTENTS (CONT.)

Chapter	Page
IV CONCLUSION.....	76
REFERENCES.....	81
BIOGRAPHY.....	87

## LIST OF FIGURES

Figures	Page
1	Relation between monotone and Lipschitz continuous mapping ..... 13
2	Relation on convex spaces.....14
3	Relation of accretive mapping.....23
