ACKNOWLEDGEMENT

I would like to express my sincere gratitude to all those people who assisted in completing this study. Without their support and help, this study would not have been accomplished.

I owe my deep gratitude to my advisor, Dr. Thitirat Suwannasom, for her invaluable guidance, kind assistance, and constant encouragement throughout the study. Without her care for several months, this study would not have been completed. I gladly extend my thanks to all of my committee: Dr. Paweena Channuan, Dr. Sudsuang Yutdhana, Dr. Sasitorn Chantharothai, Dr. Apichai Rungruang, Dr. Pornrawee Thunnithet, and Dr. Anongnad Petchprasert for their approval, meaningful comments and suggestions.

My deep gratitude goes to Dr. Sudsuang Yutdhana for her suggestions on statistical devices and continual support despite her many other academic and professional commitments. My deepest thanks also go to Assistant Professor Dr. Areerug Mejang, Assistant Professor Dr. Dutsadee Roongrattanakool and Dr. Narat Kanprachar for their constructive advices and corrections on the research instruments.

I am deeply indebted Miss. Apinyaporn Sopa for her great help in difficult times. Her statistical analysis assistance enabled me to complete this study. My personal appreciation goes to Mr. Tanawat Kuntajun and Miss Panitnan Iemtom whose inspiration, profound understanding, and kind encouragement were always available when I needed.

Wholehearted thankful gratitude is given to my parents, Mr. Tanin and Mrs. Wanna Srichompoo, and my brother, Mr. Anusorn Srichompoo, for their love, concern, understanding, patience, and support throughout my life.

Unforgettably, I would like to thank my close friends and all other people who provided me with kind information and assistance but are not named in this acknowledgement.

Sirinya Srichompoo
